ARMSTRONG

The Armstrong Industrial Mining Platforms (IMP) are meant to evolve the tactility of operators and miners, but also flaunt their functional prowess. The Armstrong IMP line of ships have, as the name suggests, arms and a core strength that can maneuver better than any other mining ship to date. The IMP stands for stability through excellence in the galaxy; without ships like the IMP family, the ability for the galaxy to mine with efficiency would be lost. Some innovations push civilizations by leaps and bounds, such as meeting Ahr. Welcome to the next generation of mining; welcome to the Armstrong IMP.

The IMP ship models have a unique dual function, being able to take part in ship missions or used to harvest resources. They can currently serve either as participating ships in the Faction Fleet to earn ATLAS or as resource generators in Faction Claims to emit R4 resources. In the future, this class of ships will play a vital role in the galactic economy.

DESCRIPTION

Mining in space is not easy. It is hard. But with high risk, can come high reward. Introducing the Armstrong IMP Tip. A powerful, compact, entry-level platform, the IMP Tip brings the challenge of deep-space industrial mining to the masses. Packed with an oversized scanner array, comfortable workstations for long hours onsite, and equipped with both grinding and drilling rig-operated appendages, the Tip allows a lean operation to do more, with less. For those who face hardship, with hard labor, every day—the Armstrong IMP Tip. Armstrong Industries: We Achieve the Impossible.

DETAILS

SPEC	MODEL	CLASS	RARITY	WIDTH (M):	HEIGHT (M):	LENGTH (M):
Miner	IMP Tip	Small	Uncommon	28.7	17.3	26

The total available supply is divided into three tranches, each with its own price step:

Tranche 1: 30% of the total ship quantity; 50% discount on the origination price.

Tranche 2: Another 30% of the total ship quantity; no discount on the origination price.

Tranche 3: The remaining 40% of the total ship quantity; 10% price premium on origination price.

☰ DESCRIPTION

When we are asked why we reach, for the moon, the stars, and beyond. We respond. Because they are there. Because it is our destiny. Destined to follow in the lunar footsteps of its flagship IMP, the IMP Tap brings Armstrong's industrial mining supremacy to bear in a heavy-duty, Medium Class platform. Equipped with signature best-in-class, deep-core feasibility scanners, an onboard bioleaching and alloy streaming refinery, and a forward "cruncher-muncher" drilling array, the Armstrong IMP Tap is set to make its mark on mining operations, galaxy-wide. Armstrong Industries: We Achieve the Impossible.

DESCRIPTION

There comes a moment, in each civilization. Among all people. In every life. When we must choose. Do we stay, or do we go? Do our arms recoil, or do they reach? Do we succumb to fear, or do we dare to dream? Representing a monolithic achievement in deep-space industrial mining platforms, the Armstrong Industries IMP delivers unparalleled resource recovery, onboard refinement, and autonomous offloading capabilities. Ensuring that your civilization will build above and beyond, that your people will conquer the competition, and that you will realize your dreams of a better future. Armstrong Industries: We Achieve the Impossible.
